SKIN
/próżnia (SKIN)

Semi-automatic rotary industrial tray sealer for professional food packaging in trays with heat-sealable film, increasing productivity.

Features
/Funkcje

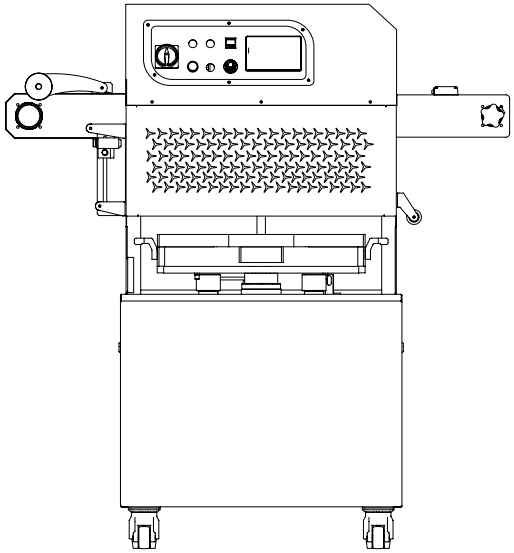

- Works with modified atmosphere (MAP), vacuum and inert gas, ensuring longer preservation and better product presentation.
- Designed for medium-scale production, it offers versatility, uniform sealing, perimeter film cutting and all safety systems.

Data table /Tabela danych

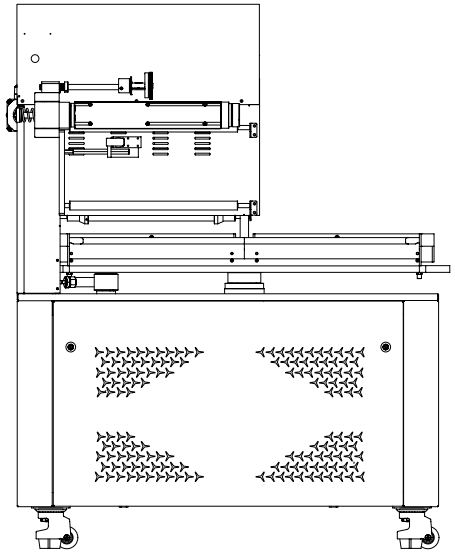

Values in mm (H × W × L) and kg; exceptions marked (x)

	Vesta Rotate
Height (mm)	1295
Width (mm)	1615
Length (mm)	1450
Weight (kg)	700-750
Max. film width (mm)	430-450
Max. film roll diameter (mm)	2990-3010
Cycles per minute	3-4
Max. tray size (mm)	390x250
Gas replacement rate (%)	98-99,5%
Gas dosing accuracy (%)	±2%
Voltage (v/hz)	380/50
Air pressure (MPa)	0.6~0.8
